Medisorb SILVER Silver dressing

Managing the infection

- the absorbent pad contains activated metallic silver which has antibacterial properties
- the dressing absorbs excess secretion and maintains a moist wound environment
- the elastic nonwoven fabric allows the product to adhere to the contours of the body shape
- steam permeable, breathable – allows for gas exchange
- self-adhesive – hypoallergenic acrylic glue is skin-friendly

Application:

- hard-to-heal wounds
- infected wounds and clean wounds as a dressing to prevent infections
- graft donor sites

Types:

- sterile

Sizes and packaging:
