- mix of dressing material of gauze and/or nonwoven: swabs, abdominal swabs, tampons and ribbon gauze
- components targeted at the given procedure reduce the number of unused sterile material
- using one complete set reduces the time to prepare for the surgery and facilitates the performance of surgical procedures
- one package eliminates the cost of the packaging of individual components
- one package eliminates the need to open multiple single in-between packaging, and thus does not increases the risk of infecting a sterile product

Application:

- as dressing and absorbing material for use during surgical and outpatient procedures

Types:

- sterile
- quantitative combination of gauze and/or nonwoven dressing materials of different sizes and layers

MD

Sterile devices are certified by the Notified Body TÜV Nord Polska Sp. z o.o. and bear the CE mark with number 2274
