- slit at the front

MEDiFIT

Clothing for medical personnel

► **Our experience**
in the medical market can be counted in tens
of years, but this is not the most important thing.
We know how hard the work of medical personnel
is and that is why we always respond to your needs.
It is thanks to the joint implementation of many
projects that today we can produce

the highest quality fabrics

that comply with legal requirements and are safe
both for people and the environment.
Thanks to the relationships we have achieved,
today we can produce clothing that meets
the highest requirements. High-quality fabrics,

practical cut and subtle accessories are
appreciated and highly-rated by our customers.

The polyester-cotton fabric that we offer
for medical clothing contains over 60% polyester,
thanks to which it is very durable, does not
discolour and does not shrink.

Comfort, on the other hand, is provided by cotton,

thanks to which the fabric gains a high parameter
of vapour permeability and breathability.

Each clothing model in the catalogue contains a code, that you can construct yourself based on the description below.

How to create the code:

F07/KR/S(164)/Z/K1L8/H

| 1. Model symbol	2. Sleeve length	3. Size and height	4. Fastener type	5. Fabric colours for the model and accessories	6. Embroidery
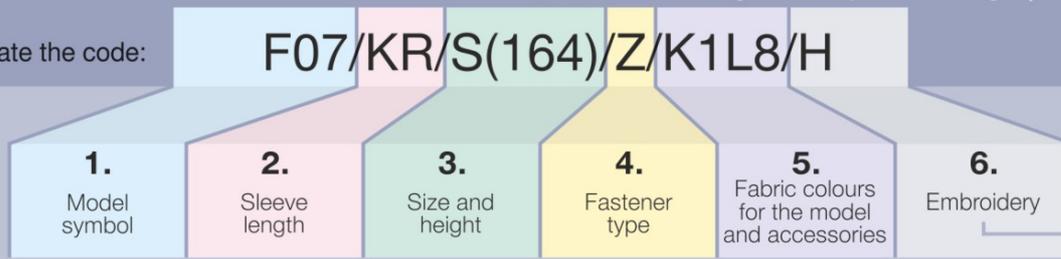

At the customer's request, it is possible to make an embroidery on the pocket of the top or gown - then the letter "H" should be entered at the end of the code. Information on the type and colours of the embroidery should be provided when placing the order.

1. Model symbol — A number by which the cut and style of the clothing can be identified
B – top, S – trousers, P – skirt, F – gown / e.g. B37, S85, P50, F07 /

2. Sleeve length — KR – short sleeve / DR – long sleeve

3. Size and height
for women: 36 – 52 or XS – XXL (158, 164, 170, 176)
for men: 48 – 60 or S – XXL (170, 176, 182, 188)
Unisex (suitable for women and men): XS – 4XL (158-164, 170-176, 182-188)

4. Fastener type — Z – press-studs, G – buttons

5. Fabric colours for the model and accessories — K – base colour, L – trimming colour,
W – colour of elastic vapour-permeable inserts

6. Embroidery — H – with embroidery

Fabric colours for the model and accessories

Base colour	Trimming colour	Colour of elastic vapour-permeable inserts
K	L	W

Colour coding method:

K5 LS2LD2LB2 W2
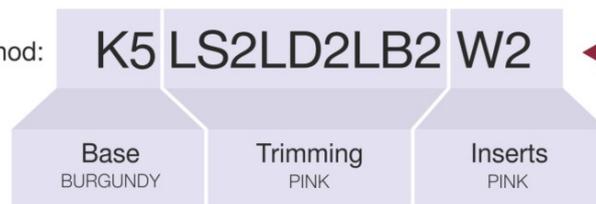

Base BURGUNDY	Trimming PINK	Inserts PINK

How to measure yourself?

A – chest circumference
B – waist circumference
C – hip circumference
D – length of the upper clothing (tops, gowns)
E – outer length of the leg in the trousers
F – sleeve length
G – skirt length

matopat

Clothing for medical personnel
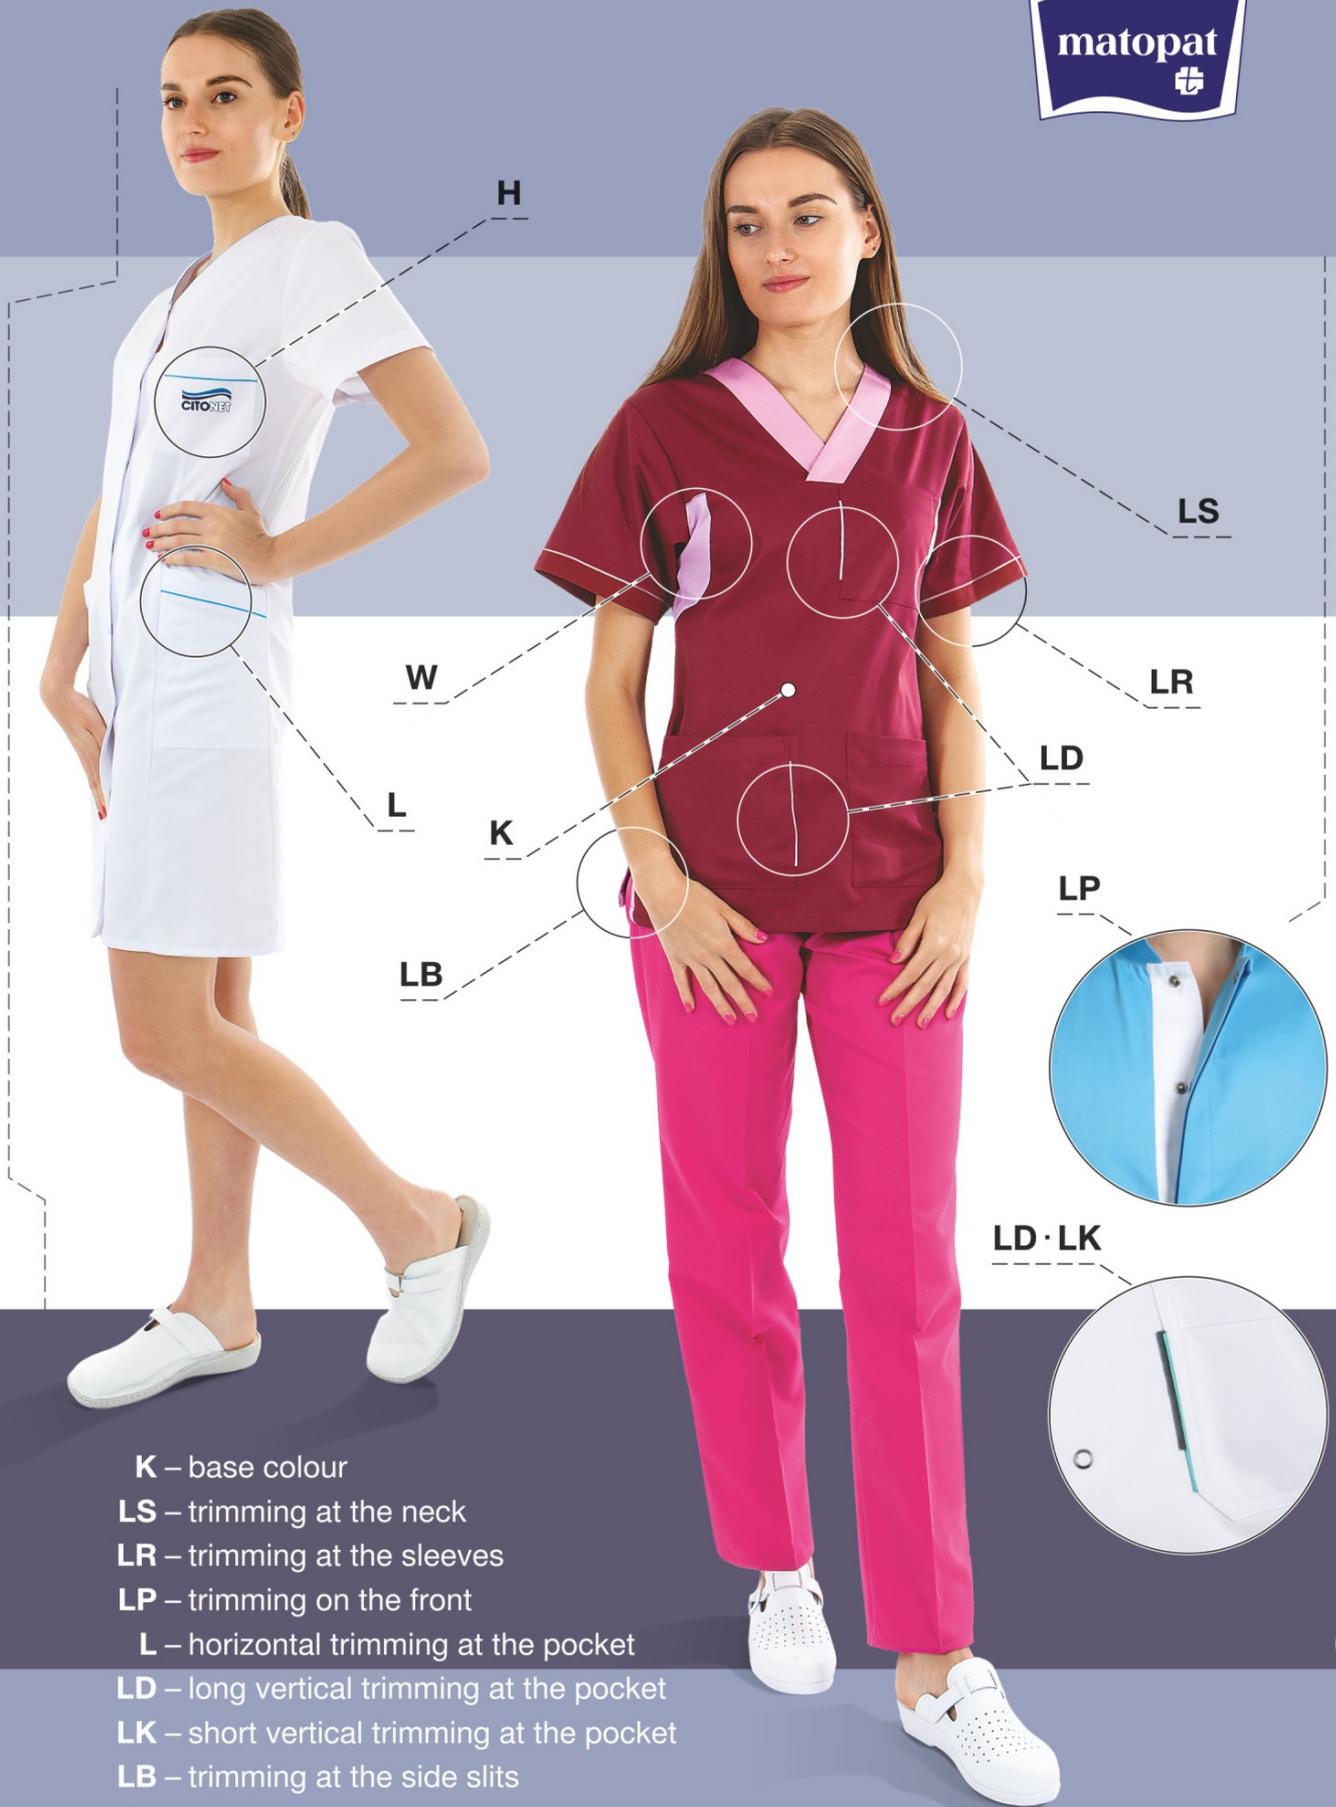

K – base colour
LS – trimming at the neck
LR – trimming at the sleeves
LP – trimming on the front
L – horizontal trimming at the pocket
LD – long vertical trimming at the pocket
LK – short vertical trimming at the pocket
LB – trimming at the side slits
W – vapour-permeable insert
H – embroidery on the pocket
